## **BRIDGE COURSE**

The Bridge Course in English is conducted for the newly admitted students every year before the commencement of the first semester classes by the Department of English. The main objective of the course is to bridge the gap between subjects studied at Higher Secondary level and subjects they would be studying in Graduation. The syllabus for the course is framed in such a way that they get basic knowledge on the subjects that they would be learning through graduation. This one-week student enhancement and development programme is devised for overall grooming and enhancement of the students' fraternity with a special punctuation for students from rural and semi- rural community.

### **Objectives**

- To bridge the gap between school and collegiate education to meet the students communicative requirements
- To prepare the students for a classroom atmosphere in which English is the medium of instruction.
- To help the students acquire the basic LSRW skills.

### **Methodology**

A Curriculum is framed separately in each of the subjects, for Bridge Course in English. During the first week after the commencement of the classes, the bridge course curriculum is delivered to the students in various disciplines. A post bridge course test is conducted after the completion of bridge course syllabus to assess the ability of student's suggestions is given to students for improvisation.

### **Syllabus for Bridge Course**

- **Basic English Grammar**

Basic Grammar Concepts: Parts of Speech.: nouns, pronouns, verbs, adjectives, adverbs, prepositions, interjections, and conjunctions.

- **Word building and their usage**

Compounding, affixation (prefixation and suffixation), clipping, conversion, backformation, blending

**Compounding:** A compound is a lexeme (a word) that consists of more than one other lexeme (word). It is categorized in two ways: An endocentric compound consists of a head and modifier. For e.g. the English compound doghouse, where house is the head and dog is the modifier, which shows that house is intended for a dog. Exocentric compounds do not have a head and their meaning often cannot be transparently guessed from its constituent parts. For e.g. the English compound white-collar is neither a kind of collar nor a white thing.

**Blending:** A blend is a word formed by joining parts of two words after clipping. For e.g. When parts of two separate words are combined to form a new word, it is Blending. Motel – motor+hotel Telecast – television+broadcast Brunch – breakfast+lunch Smog – smoke+fog Chunnel – channel+tunnel Biopic – biography+picture

**Back- Formation:** It refers to the process of creating a new lexeme (word) by removing actual or supposed affixes. In other words, backformations are shortened words created from longer words. For e.g. The word resurrection was borrowed from Latin, the word resurrect was then back formed hundreds of years later from it by removing –ion suffix.

- **Comprehension**

Reading comprehension is the ability to read text, process it and understand its meaning. It relies on two, interconnected abilities: word reading (being able to decode the symbols on the page) and language comprehension (being able to understand the meaning of the words and sentences).

- **Precise writing**

Precis writing is summarizing a comprehension in limited words, covering all the important aspects and details of the passage given.

### **Rules of Precis Writing**

To avoid making any errors in writing a precis, follow a set of rules as mentioned below:

1. Read the comprehension carefully
2. Note down the important points
3. Make a rough draft of the precis
4. Make use of simple and precise language, as much as possible
5. Draft the final precis once all the points have been included

- **Public speaking, group discussion, debate, declamation contest and extempore speech**
  - **Public speaking**

The goal of public speaking is to inform or change the audience's thoughts or actions. A good speech is easy to understand, structured, and engaging.

- **Debate**

A debate speech is a type of speech that takes place during a debate event, where all sides have an equal amount of time to speak. Debate speeches often use statistical figures to support a claim, but their purpose is to justify an opinion, rather than convince someone to join a side.

- **Extemporaneous speaking**

This is a style of speech delivery where the speaker uses notes to deliver a speech in a conversational manner. It's the style most speeches use.

- **Manuscript speaking**

In this style of speech delivery, the speaker reads a fully scripted speech. It's useful when the message needs to be delivered precisely.

- **Memorized speaking**

In this style of speech delivery, the speaker recites a scripted speech from memory.

- **How to use the dictionary?**
- **How to read the news paper?**

### Course Outcome

After the completion of the Bridge Course in English, there was a significant progress in the Listening, Speaking, Reading and Writing skills of the students. Students who had tremendous stage fear were able to overcome it and speak fluently in English. They could easily take part in Group Discussions and exhibit their views in English. Students who had Telugu as the medium of instruction at the school level gained confidence to speak and write in English.

- Students understood the examination pattern of university examination.
- They understood basic grammar of English.
- Students understood the sentence structure of English.
- Gap between Slow and Advanced learners is reduced.
- The improvement in the result of English subject is observed.

**Q. D) Read the passage and do as directed. (05 Marks)**

*I was born and brought up in a village in northern Karnataka. Things were very simple in those days. If you didn't like a person, you could just tell him to his face why you were upset with him. If somebody helped you, you could show your gratitude without any reservation. If somebody did wrong, we asked for justice. There was no hide and seek when it came to feelings. Maybe it was not civilized or polished behaviour, but it was definitely a straightforward society and a simple life.*

**Q1. Read the passage carefully and answer the questions that follow.**

Using 'ear' phones while driving can be far more dangerous than driving under the influence of liquor. Latest research says drivers using these mobile phones as a means of faster day-today communications may be heading for an accident. The study has shattered the common belief that drinking is the chief cause of the majority of road mishaps. Talking on mobile phones increases the risk to one's life compared to driving after being drunk. The findings of the study are based on the survey of several cases of road accidents.

In fact, a study of the records of drivers involved in 699 such mistakes showed that the risk of accident for those who talking on mobile phones while driving was at least four times higher compared to those driving in a state of drunkenness.
