Signature of Lecturer Incharge	
Signature of the Principal	 PRINCIPAL A.S.D.GOVT.DEGREE COLLEGE (W) AUTONOMOUS KAKINADA

Report on Chemical Disaster Prevention Day

The “Chemical disaster prevention day” initiative, led by the chemistry Department on 04-12-2025 at A.S.D Degree College for Women(A), Kakinada is a pioneering effort to make the world of chemistry come alive in the classrooms of local Colleges. Chemical disaster prevention day is observed annually to raise awareness about the hazards of chemical disaster and the necessary preventive measures. This day serves as a reminder of the importance of safety regulations, emergency preparedness and environmental protection to minimize the risks associated with the handling, transportation and disposal of hazardous chemicals. Chemical disaster can have severe consequences on human health, the environment and infrastructure. Accidents involving toxic substances, explosions and chemical spills can lead to contamination of air, water and soil resulting in long term ecological damage. As part of this initiative 112 students attempted online quiz from ASDGDCW(A), PR College and Aditya degree college.

The “Chemical disaster prevention day” program of A.S.D Government Degree College for Women serves as a crucial reminder of the responsibilities that industries, governments and individuals share in preventing chemical accidents.
