REPORT ON INTERNATIONAL OZONE DAY CELEBRATIONS

Department of Chemistry A. S. D. Govt. Degree College for Women (A) celebrated Ozone Day on 16/09/2025 in RB-2. World Ozone Day, observed annually on September 16th. Its main objective is raising awareness and catalyzing action to protect the ozone layer, our planet's protective shield. Since its inception following the adoption of the Montreal Protocol in 1987, this day has underscored the importance of global cooperation in combating ozone depletion and its harmful effects. The theme for **International Ozone Day this year 2025, "Montreal Protocol: From Science to Global Action,"** highlights the continued success of the Montreal Protocol, which has not only steered the ozone layer towards recovery but also contributed significantly to the fight against climate change. The protocol's phase-out of ozone-depleting substances has preserved biodiversity, safeguarded human health, and protected ecosystems and economics worldwide. Thanks to the Montreal Protocol, the ozone layer is healing and expected to return to pre-1980 values by mid-century. The slogan of the day, **'Ozone for life'**, reminds us that not only is ozone crucial for life on Earth, but that we must continue to protect the ozone layer for future generations. and enlightened the necessity to protect ozone layer.

Oral presentations on the theme **"From Science to Global Action"** and Power Point Presentation competitions conducted on 15th September. Around 60 students participated in these two activities. On 15th September a pledge has taken to \ save environment and its sustainability. Power Point Presentation and Elocution competitions held on 15th September on the theme **"Ozone for life"**. 10 students presented Power Point Presentation and 6 students participated in Elocution competition. Around 60 students participated in the events & equipped knowledge about Do's and Don'ts to protect ozone layer.

Events and Themes: The chemistry department curated a diverse set of events :

1. Oral Presentation Theme: From Science to Global Action:

Participants shared insights on individual contributions to sustainability.

2. Power Point Presentation Theme: “Ozone for life”

Visual displays showcased the importance of protecting **Ozone for life**”.

Prize distribution:

To create a conducive environment for the attainment of the academic excellence prizes and certificates distributed to winners of each event.
