Artists have been painting on wood paint panels for centuries. Many old world paintings have survived due to the longevity of the wooden panels they were painted on. Wood panels offer a solid surface to paint on and are simple to hang and display.

Certificate course in Stion Wood work

Course Title: Certificate Course in Stion Woodwork

Course Overview: Stion woodwork, also known as intarsia, is the art of creating intricate designs using various types of wood veneers. This course will introduce students to the techniques and principles of Stion woodwork, enabling them to create their own stunning pieces of wood art.

Course Duration: The course will be conducted over 15 days, consisting of 15 Sessions.

Learning Objectives:

- Gain an understanding of the history and principles of Stion woodwork.
- Develop proficiency in cutting, shaping, and assembling wood veneers to create intricate designs.
- Explore creative approaches to designing and executing Stion woodwork projects.
- Cultivate an appreciation for the beauty and craftsmanship of Stion woodwork.

Course Outline:

- 1. Introduction to Stion Woodwork**
 - Overview of Stion woodwork history and cultural significance
 - Introduction to tools, materials, and techniques
 - Safety precautions and workshop guidelines
- 2. Wood Selection and Preparation**
 - Types of wood veneers suitable for Stion woodwork
 - Wood selection criteria: color, grain, and texture
 - Hands-on practice: Wood selection and preparation exercises
- 3. Design Principles and Sketching**
 - Principles of Stion woodwork design: symmetry, balance, and proportion
 - Developing design concepts and sketches
 - Hands-on practice: Sketching Stion woodwork designs
- 4. Cutting and Shaping Techniques**
 - Introduction to cutting and shaping tools: scroll saw, fret saw, and carving knives
 - Techniques for cutting and shaping wood veneers
 - Hands-on practice: Cutting and shaping exercises

5. Assembly and Joinery

- Techniques for assembling wood veneers to create designs
- Introduction to joinery methods: edge-gluing, butt joint, and miter joint
- Hands-on practice: Assembly and joinery techniques

6. Layering and Dimensionality

- Creating depth and dimension in Stion woodwork designs
- Layering techniques: stacking, carving, and shaping wood veneers
- Hands-on practice: Layering and dimensionality exercises

7. Coloring and Finishing

- Methods for adding color and enhancing wood grain
- Staining, dyeing, and painting techniques
- Hands-on practice: Coloring and finishing wood veneers

8. Advanced Techniques: Marquetry and Inlay

- Introduction to marquetry and inlay techniques
- Creating intricate designs using veneer pieces
- Hands-on practice: Marquetry and inlay projects

9. Designing and Executing Projects

- Planning and executing Stion woodwork projects
- Project development: from concept to completion
- Hands-on practice: Project design and execution

10. Creative Applications and Portfolio Development

- Exploring creative applications of Stion woodwork: wall art, furniture, and decorative objects
- Portfolio development: documenting and presenting Stion woodwork projects
- Final presentation of student portfolios

Assessment Methods:

- Participation in class discussions and activities
- Completion of hands-on projects and assignments
- Final presentation and evaluation of student portfolios

Materials Required:

- Wood veneers in various species and colors
- Cutting and shaping tools: scroll saw, fret saw, carving knives, etc.
- Joinery tools and materials: wood glue, clamps, sandpaper, etc.
