## **REPORT ON THE FEEDBACK TAKEN FROM STUDENTS, TEACHERS, ALUMNI & EMPLOYERS ON CURRICULUM**

- Feedback on curriculum is crucial for several reasons, as it plays a vital role in the continuous improvement and effectiveness of educational programs. Feedback from students, teachers, Employers and alumni helps identify whether the curriculum aligns with current industry trends, technological advancements, and societal needs.
- Collecting feedback regularly ensures that the content remains relevant, keeping the curriculum dynamic and responsive to changing circumstances.
- Collecting feedback from students on curriculum ensures that their educational experience aligns with their needs, expectations, and learning goals. Gathering student inputs allows to identify areas where the curriculum can be improved or adjusted to better meet the evolving demands of students. Ultimately, the goal is to create a more student-centered learning environment that fosters engagement, satisfaction, and academic success.
- Gathering feedback from alumni who have experienced the curriculum helps in assessing the long-term impact of the educational programs.
- Teachers benefit from feedback as it provides insights into the effectiveness of their teaching methods and strategies. It also provides insights into their learning experiences, preferences, and challenges.
- This information enables them to adopt teaching methods that resonate with students, fostering a more engaging and student-centered learning environment.
- Employer's feedback enables institutions to incorporate more practical elements into the curriculum, ensuring that graduates are ready to apply their knowledge in real-world scenarios.
- In this context, to ensure that our institution stay responsive to the evolving needs of students and the broader society, the feedback on curriculum has been collected from all the Stakeholders i.e., Students, Teachers, Employers and Alumni. The suggestions and opinions of all the stakeholders about the curriculum and the facilities provided by the college are measured in the four point scale (1-Excellent, 2-Good, 3-Satisfactory, 4-Needs Improvement). The feedback collected has been analyzed and the details are as follows:

### **Suggestions:**

1. To avoid repetition of topics in Aquaculture Technology syllabus in different semesters and to balance the topics.
2. Zoology Syllabus is vast and need to have important topics only.
3. Special Telugu II Semester a few topics need to be added to upgrade the syllabus.
4. Covid-19 Virus need to be added in Microbiology Syllabus as it is need in the covid scenario and IPR also need to be added in the Curriculum.
5. A few topics need to be reoriented in the units of different semesters of Home Science Syllabus.
