

**A.S.D GOVERNMENT DEGREE COLLEGE FOR WOMEN (A),**

**KAKINADA**

**REPORT  
ON**

**EXTENSION ACTIVITIES  
IN COLLABORATION WITH  
ALL IS WELL FOUNDATION**

**All is Well NGO of Kakinada, which initiated a mission of 3 HOURS FOR SOCIETY.**

Every Sunday 6 a.m. to 9 a.m. 40-50 of our student volunteers involve in environment related activities with the mission Green our Earth, help our Ocean, and Clean our Air. The main activities include mass plantation drives, block plantation in parks and educational institutions, maintenance of plants, beach clean drives, awareness campaigns on ground water conservation and on waste management.

Our Institution is associated with ALL IS WELL Foundation since the year 2017.

The Foundation has provided the Appreciation certificates for the efforts of institution and Student volunteers in keeping live their objectives.

### **Objectives of the Activity :**

1. To promote environmental consciousness and sustainability among students through active participation in eco-friendly initiatives.
2. To contribute to the greening efforts of the local community by engaging in mass plantation drives, block plantations, and maintenance of existing green spaces.
3. To raise awareness about crucial environmental issues such as ground water conservation, waste management, and ocean pollution through awareness campaigns and hands-on activities.
4. To foster a sense of responsibility and ownership towards the environment among students, encouraging them to become active agents of change.
5. To collaborate with local organizations like All is Well NGO to amplify the impact of environmental conservation efforts through collective action

# Date : 18 - 12 - 2022

:Cleaning Pallam Raju nagar park at road no:3, Pallam Raju Nagar, Kakinada

\*ALL IS WELL\* cleared plastic waste, food waste wrafers, empty bottles, weed from the park.

\*ALL IS WELL taken the responsibility

1. to motivate near by residents to not to use the park as garbage bin

2. Cleaning Park

3. Greening park

4. Beautifying the walls and any other things as per the requirements. Your little support brings a great change in environmental savings. Our appeal to all the people to use dustbins in the parks to dump their wet and dry wastes and also we request all citizens to handover the segregated waste generated at your house to the municipal staff. It's one way of honouring municipal service providers.

# Date: 27 - 11 - 2022

**# Date : 27 - 03 - 2022**

**# Releasing of Olive Ridley Tortoises into Sea at Hope Island and Cleaning of Hope Island Beach Kakinada**

\*A great day for ALL IS WELL by involving in directing OLIVE RIDLEY TORTOISE babies into sea at Hope Island.\* ALL IS WELL is thankful to Wild Forest, Customs and Special Protection force for their support to reach Hope Island for this event. All our members reached customs office by 06:00 AM and completed the formalities and moved to Hope Island by 3 Boats.. It was a little difficult task to reach there by boats as the boats were stopped at 4 ft in the sea and all 125 members were shifted to small boats to reach to 2 ft level in the sea, from there all our volunteers got down into sea water and moved towards the shore with all the required tools. After reaching shore the team moved other side of the shore to release the Olive Ridley Tortoise babies into the sea. \*It was a wonderful experience to all after watching the efforts put on by Wild Life forest Dept for their efforts to save the babies.\*

There are 5 Olive Ridley sea turtle nesting sites in East Godavari , Andhrapradesh,India

1. Hope Island
2. G K Pora
3. S Yanam
4. Vasalathippa
5. Sacramento Island

The OLIVE RIDLEY TORTOISES comes to these places and lay eggs and the eggs will be protected from stray dogs,foxes and other predators by arranging a nest. It takes 45 days for babies to come out of eggs and these will be collected and will be released into sea. \*It's a miracle the released babies travels thousands of Kilometres in its life time but for laying eggs those will come back to same place to where those were released to enter their world of sea. After that the team has collected lot of garbage from the banks of sea to protect the nature. Our ignorance of throwing single use plastics, plastic straws, plastic spoons, plastic forks are endangers to marine life. \*The OLIVE RIDLEY TORTOISES feels our carry bags as jelly fish and tries to eat it and moving itself to close its life within no time.\* So friends think before using and throwing dangerous plastics into drains,canals,rivers and any water stream that's giving life to many species

Date : 20 - 02 - 2022

# Cleaning a public place Kakinada Beach, Kakinada

ALL IS WELL a synonym for Environment Saviors. Today \*ALL IS WELL along with INDIAN DENTAL ASSOCIATION\*, took the charge of cleaning of beach park at Kakinada Beach. The place is filled with lot of garbage like single use plastics, liquor bottles and other solid waste. Our volunteers joined together and cleaned and cleared a part of that place garbage.

# Date: 19 - 12 - 2021

# CLAP - Clean Andhra Pradesh, Kakinada.

**Date : 29 - 08 - 2021**

# Plantation in Govt. ITI akinada

ALL IS WELL carried out fruit and floral plantation in Govt ITI , Kakinada. The entire program was done with commitment and dedication on saving Biodiversity .

The spirit of saving environment by ALL IS WELL is spreading everywhere and the fragrance is motivating all the people to think about environment protection. ALL IS WELL humble request to all to be responsible in making our Kakinada clean and green. We invite innovative and useful ideas from waste.

# Seed Ball Making

## Preparation of seed balls: 29/06/2019

Arrange for good quality seeds of native trees.

Mix the seeds with about 60% mud/clay and 40% cattle dung – this is an approximate ratio – it can vary by 15%.

Add water and mould the mixture into small but firm balls. Seeds to be in middle of the balls. For large seeds, use at least 2 to 3 seeds while for small seeds you may use 5-7.

The cattle dung helps to keep animals and pests away and also provides nutrition while germinating. Cattle dung may be replaced with organic compost.

Dry the balls in shade for a couple of days, until they become firm.

Seedballs vary in size from 1.5 to 3 cm in diameter and 30 to 60 gms in weight.

Count the number of seed balls by weighing them.

Students of ASD Jr College Actively Participating in Seedball Making.

News Paper Coverage of ALL IS WELL activites in Enadu Paper.

### **Impact of the Activity 3 Hours for society through ALL IS WELL Foundation:**

1. Increased green cover in the local community through successful plantation drives and maintenance efforts, contributing to improved air quality and biodiversity.
2. Enhanced environmental literacy and awareness among students, equipping them with knowledge and skills to adopt sustainable practices in their daily lives.
3. Reduction in plastic pollution and marine debris through regular beach clean-up drives, promoting the health and preservation of coastal ecosystems.
4. Positive influence on the local community by setting an example of environmental stewardship and inspiring others to take action towards a greener future.
5. Development of leadership skills, teamwork, and a sense of civic responsibility among student volunteers through their active involvement in various eco-friendly initiatives.
6. Strengthened partnerships between educational institutions and local NGOs, creating a collaborative network for environmental conservation efforts.
7. Contribution to the overall goal of mitigating climate change and environmental degradation by addressing issues such as air pollution, waste management, and ground water conservation.

Through the "3 Hours for Society" initiative, students not only engage in practical environmental conservation activities but also develop a deep understanding and appreciation for the natural world. This hands-on approach fosters a sense of ownership and responsibility towards the environment, empowering students to become agents of positive change and inspire others to adopt sustainable practices for a greener and healthier future.

Reg. 435/2020

## Letter of Appreciation

We appreciate the efforts of the students of ASD Degree College For Women (A), Kakinada for the dedication and sustained support for past 7 Years in the activities of Plantation, Plastic Eradication, Rain Water Harvesting, Percolation Pits and etc with our NGO All Is Well Foundation, Kakinada. The efforts of the students not only beautify the environment but also plays a crucial role in mitigating climate change and preserving Biodiversity. Each Sapling nurtured by the students of ASD Degree College for Women(A) will certainly shows a hopeful way towards a greener and more sustainable future for generations to come.

Apart from this they rendered their services in releasing the Olive Ridley Hatchlings (Baby Turtles) into the Sea at Hope Island.

Thank you for being champions of environmental sustainability and for inspiring others too in caring our planet
