Subject: Department of Mathematics-Request for Permission for conducting "Ganitha Avadhanam" programme Reg.

Respected Madam.

I would like to bring to your kind notice that our department is planning to conducted a programme of "Ganitha Avadhanam" by sri Thotakura sai Ramakrishna head master ,MPL High School ,AR Puram, Samalkota on 24-10-2024 .I request you to give us permission to conduct the programme "Ganitha Avadhanam".

Thanking you madam,

Yours faithfully

A.S.D GOVERNMENT DEGREE COLLEGE FOR WOMEN(A),KAKINADA

DEPARTMENT OF MATHEMATICS

CIRCULAR

As the part of Activates Conducted by Department of Mathematics of A.S.D. Govt .Degree College (W)(A) , Kakinada, we Organizing a " GANITHA AVADHANAM" Programme On 24-10-2024 , at 2:00 PM in Seminar Hall . The purpose of this event is foster appreciation for the beauty of mathematics ,enhance problem – Solving skills , memory and encourage a deeper understanding of mathematical concepts among students .

The Resourse person is Sri Thotakura Sai Ramakrishna, Head Master, MPL High School ,Samalkot.

All are invited.

Programme conducted to 2 :15 pm to 4 : 30 pm

Session 2 :

4:30 pm to 4 :45 pm Facilitation

4:45 pm to 5 pm feed back from students and vote of thanks

The **Ganithavadanam** program is an initiative focused on promoting mental arithmetic, mathematical prowess, and cognitive skills in a fun and engaging way. The word "Ganithavadanam" is derived from two Sanskrit words: *Ganitha*, meaning "mathematics," and *Vadanam*, meaning "speech" or "recitation." Thus, it can be loosely translated as "Mathematical Recitation," which refers to the practice of rapidly solving mathematical problems and

expressing the answers verbally.

Purpose of Ganithavadanam

The primary goal of the **Ganithavadanam** program is to help individuals, particularly students, develop advanced mental arithmetic capabilities and improve their concentration, speed, and accuracy in solving math problems. Unlike traditional methods that emphasize written calculations, this program relies on verbal calculations, helping participants strengthen their mental faculties and mathematical intuition.

Key Features of the Ganithavadanam Program

1. **Mental Arithmetic:**
 - Participants practice performing arithmetic operations (addition, subtraction, multiplication, division) mentally without relying on paper or calculators.
 - The program may involve timed challenges to solve a series of problems quickly and accurately.
2. **Speed and Accuracy:**
 - The focus is on improving both speed and precision in solving problems.
 - Quick mental computation enhances the brain's ability to process and handle numbers rapidly.
3. **Engagement and Fun:**
 - Ganithavadanam incorporates gamified elements where participants are encouraged to perform recitations or solve problems in a lively, engaging manner.
 - It uses methods like rhymes or rhythmic patterns to make the learning process enjoyable.
4. **Cognitive Development:**
 - In addition to improving mathematical skills, the program helps enhance overall cognitive functions such as concentration, memory retention, and problem-solving abilities.
 - It aids in the development of critical thinking by encouraging participants to think on their feet.
5. **Cultural and Traditional Context:**
 - The program often incorporates cultural or traditional aspects of education, blending math with other disciplines like language and memory.
 - It may also draw upon ancient Indian techniques or other traditional methods of mathematical learning.

1. Basic Arithmetic Round (Simple Operations)

- **Objective:** To test the participant's ability to perform basic arithmetic operations like addition, subtraction, multiplication, and division.
- **Tasks:** Solving single-digit or small multi-digit numbers (e.g., $7 + 5$, $12 - 3$, 6×9 , $36 \div 4$).

- **Goal:** Focus on accuracy and speed in simple calculations.
- **Time Limit:** Each problem may have a specific time limit (e.g., 10 seconds per question).

2. Multiplication Tables Round

- **Objective:** To test the participant's ability to quickly recall multiplication tables and apply them in real-time problem-solving.
- **Tasks:** Reciting multiplication tables (up to 12×12) or solving quick multiplication problems using mental math.
- **Goal:** Enhance the ability to recall multiplication facts rapidly and apply them to larger equations.

3. Addition and Subtraction with Larger Numbers

- **Objective:** To challenge participants to solve addition and subtraction problems involving larger numbers or multiple steps.
- **Tasks:** Problems like $125 + 67$, $345 - 123$, or $784 + 568$.
- **Goal:** Improve mental calculation abilities for two-digit or three-digit numbers.

4. Perfect Square

- **Objective:** To assess the participant's proficiency in multiplying larger numbers mentally.
- **Tasks:** Multi-digit multiplication (e.g., 23×15 , 142×18).
- **Goal:** Test how efficiently participants can solve multiplication problems that require multi-step thinking without using paper or calculators.

5. Division and Fractions Round

- **Objective:** To evaluate division skills, particularly with larger numbers and fractions.
- **Tasks:** Solving division problems with remainders or decimal places (e.g., $134 \div 7$ or $27.56 \div 4$).
- **Goal:** Improve speed and accuracy in handling division problems and understanding fractions.

6. Speed Round

- **Objective:** To test how quickly the participant can solve a series of problems under time pressure.
- **Tasks:** A rapid-fire series of problems involving addition, subtraction, multiplication, and division. Participants must answer as many questions as possible within a set time (e.g., 1 minute).
- **Goal:** Develop the ability to think and solve problems quickly under pressure.

7. Mental Calculation with Word Problems

- **Objective:** To test participants' ability to interpret and solve real-life math problems verbally.
- **Tasks:** Solving word problems that require multi-step calculations (e.g., "If a book costs ₹200 and you buy 3 books, how much will it cost in total?").
- **Goal:** Focus on mental processing and application of mathematical concepts to everyday situations.

8. Rapid Recitation Round (Memory Challenge)

- **Objective:** To assess memory recall and the ability to perform mental arithmetic at speed.
- **Tasks:** Participants may be asked to rapidly recite a series of multiplication facts or addition chains (e.g., "What is $7 + 8 + 6 + 12$?").
- **Goal:** Build memory retention and recall speed, which is vital for higher-level mental arithmetic.

9. Complex Operations Round

- **Objective:** To test participants' ability to handle more complex calculations, involving multiple arithmetic operations.
- **Tasks:** Problems like $45 \times 3 + 125 \div 5$ or $98 - 27 + 54 \times 2$.
- **Goal:** Encourage multi-step calculations, fostering both speed and accuracy.

10. Mental Math Relay Round (Team-Based or Group Round)

- **Objective:** A team-based round where participants work together to solve problems as quickly as possible.
- **Tasks:** Teams solve a set of problems in relay, with each member solving a part of the equation or a different task (e.g., one does multiplication, the next does division).
- **Goal:** Foster teamwork while testing mental math speed and accuracy in a competitive setting.

11. Finals or Championship Round

- **Objective:** To determine the winner of the Ganithavadanam competition.
- **Tasks:** The final round typically combines the best elements from all previous rounds, including a series of challenging problems, with a focus on advanced calculations and problem-solving under time pressure.
- **Goal:** Test a participant's overall mental math prowess, combining speed, accuracy, and complex problem-solving abilities.

Brief resume about Guest

Introduction to resource person Thotakura sai Ramakrishna ,M.A,MSc,M.Phil,B.Ed ,Gagetted Headmaster Muncipal Highschool ,ARPuram,Samalkot.He achieved National Best Teacher Award in 2015 ,State Best Performance Award in 2018 ,State Best Teacher award in 2004 ,District Best Teacher Award in 2003,National Mentor for Mathematics in 2024,AP Open school 10th Maths textbook book writer ,AP Govt text book writer for primary ,Module writer for mathematics,write r of many maths books like sarada Ganitham,Olympiad maths problems solutions etc.popular in maths magician and Ganitha astavadhani.

Brief report about programme:In astha

Problem solving:

The asker says his favorite number and then gives the answer to the question, "What is the number?" without singing the number (number) in the four-digit square.

Vargaladam:

The speaker gives the desired color and tells it to distinguish between the different categories.

Dapo so:

First, the number is called, and the speaker must say a number. Then, the speaker says another number, and the speaker adds another number to indicate that the number is forbidden. Finally, the bag is divided into 8 parts with a remainder.

Solid :

The son of a perfect solid is a white half-cube, the cube root of the cube.

Manah Sankalanam:

The five Sankhas that the author has chosen are mentioned in the book, and the entire Avadhani Vata is peppered with them.

Data:

When the person says the bag of coins, the number of coins is added to it. In this way, the number of coins is added to the number of coins. The number of coins is divided into twelve digits. The task of the aradhani is to make this twelve-digit number divisible by one.

DEPT. MINUTES RESOLUTION COPY

December-2024

55

The Departmental Staff meeting was held on 9/12/24 at 5pm in the mathematics

Agenda:

1. Updating all Academic records
2. Co-po attachment
3. maths minor to I BSc students
4. Long-term Internship
5. National mathematics day
6. AQAR work

7.
Resolution:

1. To discuss update all academic records and Registers as per format maintained
2. Discussed about co-po attachment and complete mapping of co-po of maths Department to 2021 to 2022 admitted Bulets of mpc and mpc's
3. Discussed about motivating students to take maths minor and explained I BSc students about importance of mathematics
4. Discussed about long term internship to the academic year 2024-25 to the I BSc mpc, mscs. students
5. To discussed about career guidance programme on the occasion of "national mathematics day" on this connection department of mathematics conduct ppt's on "application of mathematics".
6. It is resolve to complete the all data and documentation required for AQAR work related to mathematics Dept.

REPORT

A.S.D. Government Degree College for Women (Autonomous) Kakinada

Aim:

To provide students with comprehensive guidance on the diverse career opportunities available for individuals with a background in mathematics, helping them understand the scope and relevance of mathematics in various fields, and assisting them in making informed decisions about their future career paths.

Objectives:

1. **Introduce career options:** To familiarize students with various career fields that require mathematical knowledge, such as data science, finance, engineering, education, research, technology, actuarial science, and more.
2. **Discuss career paths and qualifications:** To highlight the educational qualifications, skills, and experience needed for different mathematics-related careers.
3. **Provide insights into industry trends:** To inform students about the current demand for mathematicians in different industries, emerging career sectors, and job market trends.
4. **Enhance decision-making:** To help students identify their interests and strengths, enabling them to make informed decisions about pursuing higher education, internships, or job opportunities related to mathematics.
5. **Highlight interdisciplinary opportunities:** To emphasize how mathematics can be applied in diverse fields, such as economics, biology, and technology, and show how mathematical expertise can be combined with other disciplines.
6. **Build confidence:** To boost students' confidence in pursuing mathematics-based careers by showcasing real-life success stories of professionals in the field.
7. **Provide networking opportunities:** To connect students with professionals, alumni, and other resources in the field of mathematics, helping them to establish valuable career connections.

Outcomes

- **Increased awareness:** Students will gain a broader understanding of the range of careers available to mathematics graduates.
- **Informed decision-making:** Students will have a clearer idea of the career options that align with their interests and strengths, and the necessary steps to pursue these careers.
- **Improved career readiness:** Students will understand the academic, technical, and soft skills needed to thrive in mathematics-related professions.
- **Enhanced confidence:** Students will feel more confident about their potential career path and the value of their mathematical knowledge in the job market.
- **Better preparation:** Students will be better equipped to make decisions regarding their future education, such as choosing a suitable specialization or applying for internships.
- **Strong professional network:** Students will have opportunities to build connections with professionals and alumni who can offer mentorship, advice, and career guidance.

10.	J. Tulasi Satya	I st BSC (maths)	J. Tulasi Satya
11.	K. Ruthu Angeli	I st BSc (maths)	K. Ruthu Angeli
12.	V. Vasanthakumari	I st B.sc (computer)	V. Vasanthakumari
13.	B. Lakshmi	I st B.Sc (maths)	B. Lakshmi
14.	M. Ramya	I st B.Sc (maths)	M. Ramya
15.	G. Satya	I st B.Sc (maths)	G. Satya
16.	Ch. Saija	I st BSc (maths)	Ch. Saija
17.	Y. Mala Sri	I st BSc (maths)	Y. Mala Sri
18.	M. Seemya	I st BSc (computer)	M. Seemya
19.	K. Anitha	I st BSc (Chemistry)	K. Anitha
20.	V. Parvathi	I st BSc (Chemistry)	V. Parvathi
21.	B. V. L. Syathi	I st BSc (Physics)	B. V. L. Syathi
22.	G. Sai Sirisha	I st BSc (Physics)	G. Sai Sirisha
23.	J. Varabala Jayalaxmi	I st BSc (Physics)	J. Varabala Jayalaxmi
24.	P. Bharakalaxmi	I st BSc (Maths)	P. Bharakalaxmi
25.	Y. Durga devi	I st BSc (Chemistry)	Y. Durga devi
26.	V. N. Parvathi	I st BSc (Physics)	V. N. Parvathi
27.	R. Kalyani	I st BSc physics	R. Kalyani
28.	G. Sirisha	I st BSc computer	G. Sirisha
29.	P. Nisha Swaroopa	I st BSc. Computer	P. Nisha Swaroopa
30.	M. Akhila	I st BSc. Computer	M. Akhila
31.	Y. Suchitha Devi	I BSc (computer)	Y. Suchitha

32	M. Anushi	I Bsc (computers)	M. Anushi
33	K. Vijaya Durga	I Bsc (Physics)	K. Vijaya Durga
34	G. Sranvi	I Bsc (computers)	G. Sranvi
35	S. Chandrabala	I Bsc (computers)	S. Chandrabala
36	U. manohari	I Bsc (computers)	U. manohari
37	G. Devi	I B.sc computers	G. Devi
38	R. Pavani	I B.s.c computers	R. Pavani
39	P. Pannya	I B.S.C computers	P. Pannya
40	S. Plukapati nam	I st Bsc computers	S. Plukapati nam
41	G. Kalyani	I st B.sc computers	G. Kalyani
42	Ch. Naga Chakravarthi	I st B.s.c (computers)	Ch. N. Chakravarthi
43	Y. Sri Lalitha	I st B.sc computers.	Y. Sri Lalitha
44	K. Pavani	I st B.sc computers	K. Pavani
45	G. Durga devi	I st B.sc maths	G. D. Devi
46	K. zyaswini	I st B.s.c [maths]	K. zyaswini
47	M. Kavya	I st B.s.c (Maths)	M. Kavya
48	M. Ganga shavani	I st B.s.c (Maths)	M. Kavya shavani
49	B. Madhu	I st B.sc [Computers]	B. Madhu
50	B. madhushalini	I st Bsc (maths)	B. madhushalini
51	G. sandha raju	I st Bsc (maths)	G. sandha raju
52	S. B. S. Sasirekha	I st Bsc (maths)	S. B. S. Sasirekha
53	P. Chandusri	I st Bsc physics	P. Chandusri
54	R. Divya	I st Bsc maths	R. Divya
55	Y. L. paravallika	I st Bsc computers	Y. L. paravallika
56	M. Leena	I st Bsc computers	M. Leena
57	Ch. Mary Grace	I st Bsc computers	Ch. Mary Grace
58	K. Rethu Angeli	I st Bsc maths	K. R. Angeli
59	Sk. Thahera	I st Bsc chemistry	Sk. Thahera
60	Navya	I st Bsc chemistry	Navya
61	J. Devi Sri	I st Bsc chemistry	J. Devi Sri

Feedback

2 Two students from maths II Bsc (major and minor)Given their feed backs about This Guest Lecture .Vote of Thanks by In-charge of mathematics B. Surya Devara . I would like to extend my heartfelt gratitude to our esteemed guest speaker for taking the time to share their valuable insights with us today. Your knowledge and expertise have truly enriched our understanding. A special thanks to the organizing team for their hard work in making this event a success. We also appreciate the audience for their active participation and attention. Once again, thank you all for being a part of this enlightening session.

Sir Interact with Students

Felicitation to K.Suresh Sir

A.S.D GOVERNMENT DEGREE COLLEGE FOR WOMEN(A), KAKINADA

DEPARTMENT OF MATHEMATICS

Name of The Activity: Guest lecture on career guidance Date: 20/12/24

S.No	Name of The Student	Class	Name of The College	Signature	Feed Back
1.	G. Satya	2 nd BSc (Math)	A.S.D. Government Degree College	G. Satya	V. Good
2.	K. Harshitha	2 nd BSc (Math)	A.S.D. Government Degree College	K. Harshitha	V. Good
3.	G. Senthuraj	2 nd BSc (Math)	A.S.D. Government Degree College	G. Senthuraj	Good
4.	K. Jayasudini	2 nd BSc (Math)	A.S.D. Govt Degree College	K. Jayasudini	V. Good
5.	B. Lakshmi	2 nd B.Sc (Math)	A.S.D. Govt Degree College	B. Lakshmi	V. Good
