## **DEPARTMENT OF COMPUTER SCIENCE**

### **REPORT ON THE ONLINE QUIZ**

An Online Quiz was conducted in the class on the topic “Basics of HTML Tags” using Quizizz for the students of III B.Sc.(Computer Science) to enhance their Knowledge in Hyper Text Markup Language. A total of 23 students had participated in the quiz.

Online Quiz using Quizizz is a free, web-based tool for creating and sharing survey and questionnaires. Quizizz is a tool for collecting data and feedback.

#### **Benefits of Quizizz in the classroom for students**

1. They gain experience using online software. Especially for younger students, using Google offers an opportunity to become familiar with online applications.
2. It means less paperwork to manage.
3. It makes easily accessible.
4. Our reports give you detailed class-level and student-level insights into every quiz you conduct.

You can also download the reports.

5. Teachers have multiple options to customize their quiz session to toggle the level of competition, speed, and other factors.

Reports generated by Quiz will help the teacher to get real-time data and understand the strengths and weaknesses of the students of the class. The teacher can also use this data to plan out lessons based on the performance of students. This format is a fun and engaging way to review material, and it can motivate students to participate and learn.

Conducting quiz using Quizizz in this manner helped to motivate the students to complete assigned readings, increase participation in class discussion, and improve performance on exams for material covered in class.
